

# **TREE SAMPLES**

## **Fast Growers**

Get more shade and faster! The first thing a lot of folks ask us is "how fast does it grow" well, here's our choices for the best trees that grow quickly!

### **Ficus Nitida Columns**

This is by far the most popular choice for making an evergreen screen hedge! Can be kept in any height range from 8ft to 20ft or taller.

### **Ficus Nitida (Multi-Trunk)**

Get the thickest, widest and greenest shade all year long with the multi trunk Evergreen Laurel!

## Ficus Nitida

This is the number 1 selling tree in the Western U.S. It grows to a perfect shape, it's really clean and easy to grow and it handles the Summer heat wonderfully.

## Shamel Ash

*Fraxinus udhei*

This is the number one selling ash variety that we carry. It's big, perfect shape and grows extremely fast!

## Sisso Tree

*Dalbergia sissoo*

Though this tree looks kind of like an Aspen, it's perfectly at home and in fact thrives with ultra hot conditions.

## Willow Acacia

*Acacia salicina*

Unique silver-blue leaves with a slightly weeping appearance make this tree useful for many landscape styles.

## Jacaranda

*Jacaranda mimosifolia*

This is the purple flower tree seen all across the Southern U.S. during mid Spring. This tree grows very fast and provides a soft, filtered shade.

## Museum Palo Verde

*Cercidium-parkinsonia hybrid*

Very fast growing hybrid version of the classic Palo Verde. Provides the unique green trunks of the original only it

grows faster, is cleaner, blooms better and has no thorns.

## Fan Tex Ash

*Fraxinus velutina*

This medium to large size ash variety performs well in the Southern U.S., slightly rounded in shape and a little smaller than Shamel ash, this tree is perfect for almost any residential or commercial application.

## Chinese (Evergreen) Elm

*Ulmus parvifolia*

Commonly grown over most of the Southern U.S. for over a century, Chinese Elm still remains one of the most popular choices for shade in any application.

## Raywood Ash

### *Fraxinus oxycarpa*

This is the darkest green of all the Ash varieties available. During Fall, tree is dominated by rich Burgundy color, before it's brief Winter deciduous period.

## Carob Tree

### *Ceratonia siliqua*

Classic umbrella shaped, durable and dark green, this unique tree makes a handsome addition to any yard. Grows well and tolerates the hottest summer sun. Low litter and little pruning once established.

## Tipu Tree

### *Tipuana tipu*

Tipu is rapidly becoming one of the most popular varieties that we sell! It grows really fast, makes an incredible umbrella for shade and handles the intense heat of Summer.

## Acacia Saligna

*Acacia Saligna*

Wide growing umbrella shaped, Medium size tree. Provides soft, filtered shade. Super fast growing tree. Very durable heat & cold.

## Arizona Ash

*Fraxinus velutina*

This is large & very fast growing ash. It performs well at low elevations, when given proper water. It provides maximum shade in the Summer and allows sun during the heart of Winter, while it is briefly deciduous.

## Mimosa

*Albizia julibrissin*

This beautiful, rainforest style tree actually performs very well in the intense sun. Unique pink blooms highlight the tree throughout most of the late Spring, into early Summer.
